**2. 81 Scribner Way/Michael Mullaney/PMP Associates/NOI/Inground pool**

Applicant submitted a notice of intent (NOI) for an inground pool. During inspection of the site performed by AW, a batting cage, with fill was observed to be encroaching on a wetland line from 1999. The new, proposed wetland line had markers up against the "back" of the batting cage, indicating that likely filling of wetland area occurring (inside the 1999 wetland line). The Commission conditioned that prior to the inground pool being installed that the batting cage area, and all other play equipment was to be removed from the wetland area as delineated in 1999, with Conservation Markers established in a line from flag A9 to flag A12 (as shown on the 1999 wetland line), and the area of the batting cage to be excavated back to the original soil, and planted with a wetland conservation seed mix.
