Veteran Services

Mission Statement

Veterans' issues are of great interest to our community. Considering our country's problems, our Veterans and their families are in the forefront of our mind!!

The mission of this office is to provide eligible Veterans and their families who are residents of East Bridgewater, financial assistance and medical care in accordance with a formula that takes into account the number of dependents and income from all sources under the provisions of Chapter 115, Massachusetts General Law.

Our department oversees the financial assistance program known as Massachusetts General Law Chapter 115. This includes the decoration of Veterans' graves and carries out commemorative activities related to East Bridgewater Veterans. Learn more about the rights and benefits of military personnel.

With deep appreciation, we recognize and engage our Veterans and their families, advocate for assistance in their time of need, and connect them with the services they've earned. When it comes to assisting Veterans and their families it is our mission to support the whole veteran.
